

TEST AND EVALUATION

Acuity Innovations delivers comprehensive Test and Evaluation (T&E) services with over 30 years of expertise, ensuring quality and reliability through strategic test planning, execution, and stakeholder collaboration to support operational readiness across government and industry sectors.

DELIVERY APPROACH

Our approach focuses on delivering reliability and effectiveness of systems, products, and technologies and validating operational readiness and mission performance. We prioritize early involvement from all stakeholders, identifying opportunities for integrated testing to reduce risk, minimize cost, and schedule impacts. We promote smaller, incremental deliveries of capability that enable flexibility and agility in adapting to changes. Key to this flexibility is engagement with end-users, allowing us to deliver integrated solutions that meet their needs.

CAPABILITY VALUE

TEST PLANNING

- Test Strategy
- Detailed Roadmap
- Test Scope
- Test Design
- Early Stakeholder Engagement

TEST EXECUTION

- Test Objectives
- Detailed Test Procedures
- Operationally Realistic Environment
- Test Documentation
- Continuous Stakeholder Engagement

TEST REPORTING

- Data Analysis
- Discrepancy Management
- Test Reporting
- Risk Assessment
- Stakeholder Communication
